Output: Diagnostic Handoff
$\mathcal{D}$
• Attribute collision on formed=1989
• Missing Blues text bridge
• Emits packet $\mathcal{D}$ & pauses without guess
Primary LLM
• Evaluates evidence path against question constraints
• Strict Audit Rule: Zero guessing on ambiguous candidate ties
Resolution (Call 2)
• Evaluates isolated tied candidates directly against bridge passage
• Zero Noise: Eliminates context dilution for crisp resolution
Termination: Final Verified Answer: "York"
≤ 2 LLM Calls Total • 100% Grounded Provenance • Zero Hallucination
